Insurance Resolutions, Inc.

A MESSAGE FROM OUR MANAGING DIRECTORS

Insurance Resolutions, Inc. (IRI), is a specialty consulting firm dedicated to the insurance industry. Our firm is focused on providing high quality services at cost effective rates which consistently translate into measurable net gains for our clients.

Our expertise and capabilities are heavily focused on assignments involving the field of reinsurance. On the buy side, we can provide and/or implement software that handles your ceded reinsurance administration including all aspects of accounting, financial reporting, and internal control. Further, we can provide resources to support and/or completely outsource, as needed, these functions. On the sell side, we supply services to address your assumed relationships including audit and inspection for routine due diligence, and dispute and litigation support, and forensic accounting investigation if difficulties arise. Applicable to both the buy and the sell side, we can conduct claim and premium leakage studies that recover funds lost over the years due to weaknesses hidden within your existing processes.

Since establishing our firm in 2001, we feel fortunate to have been able to steadily grow our practice and at the same time to cultivate many deep and long lasting relationships with both our clients and our professional staff. We know that we owe the success of our practice to our ability to leverage our collective talents to serve our clients and on the resulting market reputation we have earned.

We hope you will think of IRI when the need arises for support and assistance in connection with your exercise of due diligence involving reinsurance within your organization.

OUR PROFESSIONAL STAFF

Most of our professional staff possess more than 20 years of operational experience in the insurance industry. We are well versed in all core insurance enterprise functions including underwriting,claims, accounting and finance, auditing,actuarial science, and information technology. Our experience encompasses both direct (primary and excess) and reinsurance (inwards and outwards) operations. Many of us hold advanced degrees and industry and other professional credentials. For individual biographies please refer to our website at

www.ins-resolutions.com

CLIENT REFERENCES

We are pleased to provide you with references from among the many insurers, reinsurers, professional service firms, regulators, and attorneys we have served in the market.

OUR VISION

We strive to be distinctive among our competitors for the strength of our insurance and reinsurance business expertise, our ability to leverage information technology to perform our work, and the audit discipline to ensure that our findings withstand challenges, when needed.
